- C
- HTML5
- CSS
- Javascript
- React.js
- Bootstrap
- Python
- MySQL

CAREER OBJECTIVE

As a recent graduate in Information Technology, I am eager to contribute my knowledge to a dynamic team. I aim to further develop my technical skills while delivering innovative solutions that contribute to the success of the organization.

WORK EXPERIENCE

Fresher

📅 - current

PROJECTS

TeleChatGpt

📅 - current

- Developed a Telegram bot integrated with the ChatGPT API to provide AI-powered conversational responses directly within Telegram.
- Implemented seamless communication between the Telegram bot and the ChatGPT API, enabling real-time interactions for users.

My Portfolio

portfolio-website

- Designed and developed a responsive portfolio website to showcase personal brand, skills, and projects.
- The site features dynamic sections like About Me, Services, Portfolio, and Contact, with a Google Sheets-integrated contact form for message submissions.
- Leveraged modern web technologies including HTML, CSS, and JavaScript to create an interactive and user-friendly experience.
- Incorporated external libraries such as Font Awesome for enhanced visual appeal and functionality. The project demonstrates expertise in front-end development and responsive design.

Gourmet Restaurant Website

Bombae-Duck

- Developed a responsive and user-friendly website for a gourmet restaurant, *Bombae Duck*.
- The project includes features for customers to browse the menu, learn about the restaurant, and book dining reservations seamlessly.
- Integrated an interactive login system and styled the interface using modern HTML and CSS, ensuring an elegant and professional design. Implemented a sticky footer, optimized image presentation, and created a dynamic booking confirmation page for an enhanced user experience.
